Thanks Tristan for your information and questions. Rob Parker has the latest and best information from EPA so I will let him respond to the status of our communications with CFAC.

Julie,

This morning the Columbia Falls Aluminum Company announced the permanent closure of the plant. I'll forward you CFAC's press release in a separate email. On procedural background, I'm wondering if this changes anything as the EPA continues to explore NPL listing. Is this a sign of capitulation or cooperation by CFAC, or a sign that they intend to cooperate with a potential Superfund listing and subsequent cleanup? Any updates on the state of CFAC would be much appreciated. Thanks in advance.

Best,  
Tristan
